

ARJUN KUMAR REDDY

Hyderabad, India | +91 9876543210 | arjunkumar.dev@example.com
linkedin.com/in/arjunkumardev | github.com/arjunkumardev

Professional Summary

Computer Science and Engineering graduate with strong foundations in software engineering, AI, machine learning, backend development, cloud computing, and data engineering. Experienced in designing scalable distributed systems, developing production-ready APIs, and building end-to-end AI applications.

Education

B.Tech in Computer Science and Engineering

National Institute of Technology
CGPA: 9.5 / 10

Technical Skills

Languages: Python, Java, C++, SQL, JavaScript

Frameworks: FastAPI, Django, Flask, Streamlit

AI/ML: PyTorch, TensorFlow, Scikit-learn, LangChain, LangGraph, LlamaIndex, RAG, Vector Databases

Data: Apache Spark, Kafka, Airflow, PostgreSQL, MongoDB, Redis, Snowflake

Cloud & DevOps: AWS, Azure, GCP, Docker, Kubernetes, GitHub Actions, Linux, CI/CD

Projects

Enterprise Multi-Agent RAG Platform

- Designed multi-agent architecture for enterprise knowledge retrieval.
- Built FastAPI services with PostgreSQL and Redis.
- Containerized deployment using Docker and Kubernetes.
- Implemented authentication, conversation memory and evaluation pipelines.

Real-Time Data Engineering Platform

- Developed streaming pipelines with Kafka and Spark.
- Automated ETL orchestration using Apache Airflow.
- Created analytical data warehouse and monitoring dashboards.

AI Resume Screening System

- Implemented semantic search using embeddings and vector databases.
- Built LLM-powered candidate ranking and skill extraction.
- Exposed scalable REST APIs for enterprise integration.

MLOps Platform

- Automated model training, deployment, monitoring and rollback.
- Integrated CI/CD workflows for reproducible ML deployments.

Certifications

AWS Certified Cloud Practitioner

Microsoft Azure AI Engineer Associate

Google Professional Data Engineer

Achievements

Dean's List for Academic Excellence
Top Performer in University Hackathons
Open Source Contributor
Solved 600+ Competitive Programming Problems
